

# RIDGEWOOD VILLAGE

## Sewage Guidelines

- **YOU MUST CONTACT THE OFFICE IF YOU HAVE A SEWAGE ISSUE.**
- All homes must have a proper clean-out. If there is not a clean-out, one will need to be installed before we can run your line.
- Ridgewood Village will attempt to run your sewage line first. If we cannot solve the problem, then we will contact Roto-Rooter. If only roots are found in the line, Ridgewood will pay for the service call. If foreign items are found, the bill will be the tenant's responsibility.
- If you call Roto-Rooter, without first contacting Ridgewood, you will be responsible for paying the charges and will not be reimbursed by Ridgewood.
- **DO NOT FLUSH ANYTHING DOWN THE LINES OTHER THAN TOILET TISSUE.**
- If we run your line and find any foreign items, your lot will be assessed a service charge.

I, as a resident and /or leaseholder of a mobile home lot in Ridgewood Village Mobile Home Park, do hereby attest that I have read and do understand the rules pertaining to Sewage issues at Ridgewood Village. I also understand that it is my responsibility to see that my guests, roommates, tenants, and /or children understand these guidelines.
